

L. I Builders & Remodelers Education & Research Institute

LONG ISLAND BUILDERS INSTITUTE

Advocating Responsible Building & Remodeling

** Effective June 16, 2011: You are required by OSHA to have a fall protection plan for your company and a Fall Protection Plan specific to each jobsite where employees work higher than 6 feet without convenient fall protection (29 CFR 1926.501 (b) (13))

If you do not have a NY state and site-specific Fall Protection Plan (FPP) as required by OSHA, GET ONE BEFORE YOU GET FINED!

Last year, more than 11M dollars in fines were issued by OSHA for fall prevention violations and the trend has only increased this year. It is one of the top causes of accidents and death on the jobsite

AVOID A FINE- GET OSHA CERTIFIED TODAY AND STAY OSHA COMPLIANT
