**FOR IMMEDIATE RELEASE**

**Riverhead Building Supply Corp. Announces New Locations in Rhode Island**

*(Shirley, NY – November 2, 2009)* Riverhead Building Supply Corp., a leading supplier of lumber and building materials on Long Island, NY, has announced the opening of two stores in Rhode Island. JT's Lumber, a company that has been providing lumber and building materials to the Ocean State for over 100 years, is now part of Riverhead Building Supply. Store locations are in North Kingstown and Middletown, RI.

"JT's Lumber is a business that is very similar to our own. It's a good fit for us, and we are making a smooth transition into the Rhode Island market," said Edgar Goodale, president of Riverhead Building Supply Corp. Riverhead Building Supply Corp. operates 9 retail lumber and building supply locations on Long Island, NY. The company is independently owned and operated and has been in business for over 60 years. The company's primary customers are custom home builders, general contractors, remodelers, and other members of the building trade.

"Riverhead Building Supply will operate under the JT's Lumber name, with the same qualified JT's Lumber personnel," said Goodale. "Our goal is to keep the JT's Lumber tradition going strong for another 100 years."

The expansion also includes two JT's Signature Spaces design centers, which Riverhead Building Supply plans to rename Perimeters. Perimeters showrooms are the designer showrooms of Riverhead Building Supply, featuring fine cabinetry for the home, windows, doors, mouldings, Heritage Wide Plank Flooring and more. There are currently 6 Perimeters Showrooms located on Long Island. The newest location, Bayside, Queens, opened its doors just 2 weeks ago.

The Riverhead Building Supply Corp. companies include Riverhead Building Supply, Perimeters, Heritage Wide Plank Flooring, and now JT's Lumber. Information about all of these companies is available by calling Riverhead Building Supply at 800-378-3650, or viewing their websites: [www.rbscorp.com](http://www.rbscorp.com); [www.jtsluglumber.com](http://www.jtsluglumber.com); [www.perimetersli.com](http://www.perimetersli.com); and [www.hwpf.com](http://www.hwpf.com).
