VERSATEX™

The beauty of wood, the durability of PVC

CANVAS SERIES BROCHURE

WP4 in Walnut

Finished hardwood look with Versatex PVC durability

Stained hardwood looks great in outdoor spaces — when it's first installed. Then sun, wind, salt, and moisture take over, and the seasonal scraping, sanding, and re-staining begin. Put it off for a year or two, and rot takes hold. The Canvas Series® from Versatex® solves these problems with beautiful, realistic stained wood looks bonded to high-performance, rot-proof PVC substrates. Engineered for years of near-zero maintenance, it maintains its high-end aesthetics with little upkeep and no staining or sealing ever. Performance is backed with a Lifetime Limited Product Warranty and a 12-Year Limited Film Laminate Warranty.

Worry-free woodgrain finish choices

Offered in a wide variety of lightly textured, low-gloss finishes, the Canvas Series is the solution to any project's porch ceiling, soffit, wainscotting, and other exterior applications.

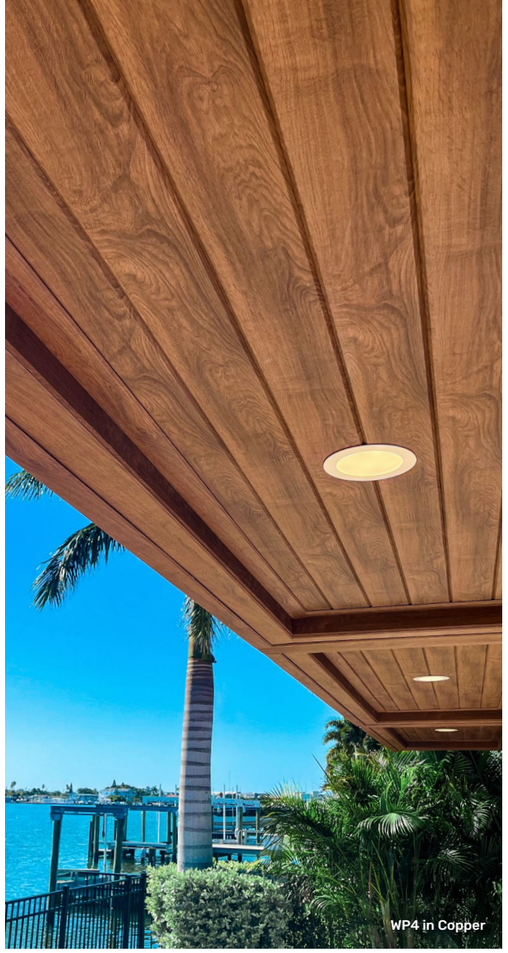
All you need for your project

The Canvas Series® features the profiles you want to upgrade your exterior wall, ceiling, and soffit projects with a rich look and years of low maintenance. Lightweight, easy to move, and easy to cut, Canvas Series boards will quickly become your favorite material for distinctive outdoor spaces.

		LENGTH		
		10'	16'	18'
Profile	Actual			
WP4	3/4" x 5-1/2"			●
NEW! Nickel Gap	3/4" x 5-1/2"			●
Stealth Bead	1/2" x 6"			●
4" Crown	9/16" x 3-5/8"		●	
Bed Mould	9/16" x 1-3/16"		●	
Trim Boards	1" x 8" & 1" x 12"			●
NEW! 6" Stealth Trim*	5/4" x 5-1/2"			●
Versawrap®**	6" x 6" x 10'	●		

*Stealth Trim has a 1-1/2" deep pocket for covering siding ends.
**Canvas Series Versawrap® comes in three colors: Natural Amber, Turner Oak, and Kitami. The wrap is in four pieces, engineered for interlocking.



WP4 in Copper

Stealth Bead in Turner Oak

WP4

The WP4 profile features a characteristic V-groove, for distinctive shadows and visual appeal. Made with tongue-and-groove sides for tight, even seams, this traditional look can be top-down fastened or invisibly fastened using the VZClip system.

Available in all nine colors

New! Nickel Gap

The Nickel Gap profile gives a contemporary look with precise, nickel-wide gaps that don't need measuring, cutting, or spacers. Like everything in the Canvas Series, Nickel Gap is backed by a transferrable Limited Lifetime Warranty.

Available in all nine colors

Stealth Bead

Canvas Stealth Beadboard delivers the traditional, center beaded, narrow board look in an updated, hidden-flange board that makes installation fast and invisible fastening easy. Once installed, it's visually indistinguishable from ordinary tongue-and-groove beadboard, and it's available in all nine Canvas Series colors.

Available in all nine colors

Crown & Bed Mould

Canvas Series Moulding dresses up your Canvas ceiling borders with a perfect match (or dramatic contrast) for timeless elegance. Its light weight makes installation easier, and the PVC material cuts smoothly and splinter-free. Canvas touch-up daubers help hide nail holes and dings with matching color blends.

Available in all nine colors

Canvas Series® Trim Boards

NEW - 6" STEALTH TRIM AVAILABLE

To answer the overwhelming demand from our customers, we created Canvas Series Trim Boards. Their woodgrain laminate covers three sides of the board and wrap slightly onto the fourth side, minimizing the need for touch ups. They are great for beam wraps, accent walls, or other exterior locations where you need a beautiful wood look with near-zero maintenance. Boards can be cut or ripped down to custom size and edges finished with Canvas Series markers or daubers to conceal the exposed white core.

Available in all nine colors

Trim Boards in Turner Oak

Versawrap in Natural Amber

Canvas Series® Versawrap®

Wrap beams and posts with the rich look of premium stained wood with the low-maintenance convenience of Versatex. Natural wood-tone laminates are bonded onto four-piece 6" x 6" x 10' Versawrap PVC profiles, eliminating the need for labor intensive re-staining and adding the durability, moisture- and insect-resistance of cellular PVC.

Available in Natural Amber, Turner Oak, and Kitami

Accessories

- 10" four-piece accent wrap
- Base moulding kits (cut to size with Hofmann Dovetail connectors)

Getting professional results with the Canvas Series

As a friend to the contractor, we have many resources available to help make your job easier and your results better. In the Pros & Partners section of VERSATEX.com, you'll find installation guides (in English, Spanish, and French), technical drawings, video tutorials, and more. And the Versatex team is always ready to provide assistance, whether on the phone or at the jobsite.

When it comes to the Canvas Series, here are a few of the top tips for a great project:

- Before installation, remove boards and note repetitive woodgrain from board to board. Some colors have three to five unique boards; plan the order to prevent patterns.
- Canvas Series laminates do not fold over cut ends, which will appear white. Use color-matched coating daubers to cover any visible white seams (easier before installation) or deep dings.
- Versawrap Canvas Series Base Mouldings are generally optional but are required when using the Canvas Series Accent Wrap, to cover exposed white edges.

Fastener choices

Versatex's VZClip fastener speeds up and simplifies the installation of 3/4" trim profiles including the Canvas Series' WP4 profile. VZClips slide over the nailing flange and secure to wall studs/ceiling joists using #8 galvanized or steel screws. Test-site data shows that installing with VZClips keep Versatex Siding firmly in place even at wind loads over 125 mph.

VZCLIP

Canvas Series Pro Plug® System

This hidden fastening system creates a secure, face-fastened connection that's virtually invisible using matched Versatex PVC plugs. Installation uses a setting tool, screws, and plugs. All components work together; follow instructions to ensure proper function.

- Available in all nine Canvas Series colors
- Available in 250 LF or 750 LF packs
- 2-3/4" epoxy coated screws
- Canvas plugs
- Installation bit
